COMPANY VIEW

A statement by Sheldon G Adelson, the Chairman, Chief Executive Officer and Treasurer at Las Vegas Sands, is given below. The statement has been taken from the company's 2014 annual report.

Fellow Shareholders,

I am pleased to present to you our 2014 Annual Report.

2014 was another successful year for the Company as we continued to execute our operating strategies and fortify our position as the preeminent worldwide developer and operator of convention-based Integrated Resorts. We delivered another year of industry-leading financial performance, setting records in net revenue, adjusted property EBITDA, cash flows from operations, adjusted net income and diluted earnings per share.

The Company returned nearly \$3.3 billion of capital to shareholders during 2014 in the form of dividends and stock repurchases. We remain committed to growing the return of capital to shareholders in the years ahead, and announced a 30% increase in our annual recurring dividend to \$2.60 per common share for the 2015 year.

In Macao, we delivered market-leading growth, while meaningfully contributing to Macao's economic diversification and development goals. Our property portfolio produced record revenues and cash flows from operations. Strong growth in non-gaming revenue from our hotel, retail, entertainment and convention businesses, coupled with growth in mass gaming win, contributed to record financial results and reflect the inherent benefits of our convention-based Integrated Resort business model.

With the completion of The Parisian Macao and the St. Regis Tower, we will have invested in excess of \$13.0 billion in Macao to deliver on our commitment to its economic diversification and evolution into the world's leading business and leisure tourism destination. As one of the largest employers in Macao, we are proud of our meaningful investments in the training and professional development of our 28,000 Sands China team members.

In Singapore, Marina Bay Sands continued its strong financial performance and remains the most successful convention-based Integrated Resort in the world. Marina Bay Sands is a must see destination in Asia and has contributed to increasing business and leisure tourism to Singapore. The success of Marina Bay Sands has allowed it to serve as an important reference site for emerging jurisdictions that are considering Integrated Resort development.

The benefits of our convention-based Integrated Resort business model extend far beyond our own financial success. The Company's properties and service offerings, featuring dining, shopping, convention, group meeting and entertainment experiences, increase the appeal of our host countries as business and leisure tourism destinations, while helping to diversify their economies, attract outside investment, and increase employment.

Our Integrated Resort business model could provide meaningful economic benefits in additional countries in Asia. We believe our unmatched track record of successful Integrated Resort development coupled with our industry-leading financial strength uniquely position us to secure future development opportunities.

I am proud to highlight the positive impact that the Company and our nearly 50,000 team members have had on the local communities in which we operate. Through Sands Cares, our corporate citizenship program, we are committed to making our local communities a better place to live while reducing our environmental impact on the planet.

Thank you for your support and the confidence you continue to show in our Company. We look forward to sharing with you the ongoing success of the Company in the years ahead.
